

DO YOU HAVE AN AIR HEAD?

For the bargain price of \$299 RRP, you can have a top of the range AGV lid from Monza Imports.

The Air Tech is aerodynamically shaped to minimise wind resistance and maximise comfort over long distances. The shell is made from ACF2 advanced composite fibres and contains chin and forehead vents as well as a removable and washable lining. The 2mm polycarbonate visor is quick-removal for easy changes and the lid is fastened via a double D-ring tension system.

Available from Monza Imports on (03) 8327 888 monzaimports.com.au

GLOVES FROM THE DARK SIDE

Mcleod Accessories are stocking the latest range of Teknic Helicon gloves to compliment the Helicon jacket displayed in last month's The Goods section.

The gloves feature a drum dyed cowhide construction, a chrome vented Airblade system to keep your claws cool and a Kevlar lined palm.

These solid gloves have a RRP of \$179, and you can get them from Mcleod Accessories on 1300 300 191

HOT HOOPS

Aussie Kaneg Tyre Warmers feature a fully adjustable digital temperature control box that allows settings for wets, inters and slicks. The warmers are made from fire retardant Aramid fibre and contain a Kevlar insulation sheet. The acid-proof surface means these warmers will probably outlast your racebike! The Kaneg Tyre Warmers cost \$450 RRP, including delivery Australia wide. 0414 712 419 kaneg.com.au

CHARLIE CHECA'S TRUMPET

The importers of Arrow in this country, Troy Corser Agencies, have just received the latest WSBK-spec pipes direct from Arrow's SBK race lab test facility in Europe.

There are two versions of the race-winning pipe available for road going bikes, the slip-on and the full titanium system.

The slip-on uses a mid-pipe and slips straight on to the OEM headers. The 'Indy' is \$1256 RRP, and the 'Trophy' is \$1256 RRP. The full system will set you back \$2420 RRP. You can get one the same as Checa's but, they are only available for track bikes.

All Arrow parts are available from Troy Corser Agencies on (02) 4297 3944 tcaonline.net

SECURE RIDER

The Scorpio SR-i900 alarm, as seen on Project ZX-10R, features RFID technology, which means it senses where the remote is so you don't need to switch the alarm on and off when you ride, as it activates and deactivates automatically.

The Scorpio SR-i900 is very simple to install and costs \$540 RRP. Call Kenma on (02) 9484 0777 kenma.com.au

IT'S ABOUT TIME!

Why didn't we think of this? Now there is finally a viable means of strapping your E-Tag to your bike with the Toll Rider Magnetic System. The toll rider E-Tag pouch can be mounted on the tank via a magnet or a clamp can be used to secure it to your 'bars. No more fumbling for change. Visit tollrider.com or call (02) 9914 8732
